ROBERT FERRELL

Type: ROUTINE INSPECTION

Date: 10-DEC-2018

3.127(d)

FACILITIES, OUTDOOR.

Fallen trees have damaged the perimeter fence in two locations. In both locations, the fence has been flattened and no longer provides an adequate barrier. The perimeter fence must be a secure, intact barrier from the ground to at least 8 feet in height. The fallen trees must be removed and the fence repaired/replaced as soon as possible. The facility must work to ensure that trees around the fence are monitored and maintained as needed to help protect the integrity of the facility.

Correct by: 17 December 2018

This inspection and exit interview were conducted with facility representative.
