THOMPSON PARK ZOO

Type: ROUTINE INSPECTION
Date: 17-FEB-2016

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

*** The current animal inventory report is not accurate. Its does not list recent acquisitions or dispositions of animals including the acquisition of 2 bears and the disposition of 5 otters or 3 Alpaca's. Additionally the death of a skunk is not recorded and the cougar at the facility is not on records. These records need to be updated and maintained in a timely and accurate manner to reflect the current animal inventory and per this requirement.

3.127(d)

FACILITIES, OUTDOOR.

*** At the time of the inspection, the park was closed to guests but the inspector accessed the animal care building which was unlocked and was able to wander around the building with no personal present for over 15 minutes prior to locating an employee. The inspector had access to bobcats and educational animals at this time. Additionally one section of the perimeter fence was open and anyone could have had access to the park with no employee knowledge. Although the park is closed during winter months, these doors and gates should be closed and locked to prevent unauthorized persons from entering the facility and for secondary containment should an animal get out of a primary enclosure. This needs to be addressed for the safety of the animals.
