

Inspection Report

Oklahoma City Zoo
2101 N E 50th
Oklahoma City, OK 73111

Customer ID: **3953**
Certificate: **73-C-0002**
Site: 001
OKLAHOMA CITY ZOO

Type: ROUTINE INSPECTION
Date: 05-MAR-2018

3.75(c)(1)

HOUSING FACILITIES, GENERAL.

- In the great ape escape area, the Chimpanzee Day Room #4 contains numerous logs connected together providing climbing/resting structures for the enclosed primates. There are numerous splitting logs and numerous logs that are deteriorated to the degree that they are no longer anchored securely to the floor and/or walls of the room. Due to the wood loss, their structural integrity is affected and they cannot be cleaned and disinfected properly since the wood is cracked, jagged and no longer adequately sealed. The facility must repair or replace all affected logs, and must ensure that all climbing structures are sound and free of rust and jagged edges.

- In the great ape escape area, the Gorilla Day Room #1 contains numerous logs connected together providing climbing/resting structures for the enclosed primates. There are numerous logs that are deteriorated to the degree that they are no longer anchored securely to the floor. Due to the wood erosion and splitting the structural integrity is affected and they cannot be cleaned and disinfected properly since the wood is cracked, jagged and no longer adequately sealed. The floor has peeling paint in the bottom level of the room. The surfaces of housing facilities must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled.

Correct by June 1, 2018

Inspection and exit briefing were conducted with facility representative(s).
