SOUTHWEST BIO-LABS, INC.

Type: NEW SITE INSPECTION

Date: 30-AUG-2022

3.13(a)(3)

Veterinary care for dogs.

The written program of veterinary care is incomplete. There is no specific frequency or number of animals noted for sampling dogs for the specific parasites listed in Section 3.13(a)(3). There are also no specific treatment plans listed for animals with positive test results.

Parasites are a common cause of disease in dogs and, if undetected and not properly treated, can lead to serious illness and even death. The program of veterinary care must be completed and followed, to include plans for sampling and treatment for the specific parasites noted in the Section 3.13(a)(3). The missing information must be added to the program of veterinary care to ensure the animals are receiving adequate veterinary care.

This inspection was a site approval inspection.

Please contact your inspector to schedule your next new site approval inspection.

This inspection and exit interview were conducted with facility representatives.
