3.150(a) Critical

Facilities, general.

On 10/17/24 a duck named "Helen" disappeared from her enclosure. The duck was never found. On 2/24/25, a duck named "Sandy" was inadvertently left out overnight and most likely died of a predation event during the night. Her body was never found or recovered. The only thing found of her was blood and feathers. Housing facilities must employ security measures that contain all birds securely and safely. Failing to do so can result in the disappearance or predation of the birds as in what has been documented in this case. Correct starting on 4/28/25.

This inspection and exit interview were conducted with the facility representative.

End of report.
