Type: ROUTINE INSPECTION
Date: 23-JUN-2015

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

At the time of inspection, the program of veterinary care was not available for review by APHIS personnel. An updated program of veterinary care should be kept at the facility and available at all times upon request during inspection. The plan should be current and reflect the agreed upon health of the animals at the facility between licensee and attending veterinarian.

Correct by: 7/10/2015

3.131(c)

SANITATION.

At the time of inspection, the facility had a variety of miscellaneous items, clutter and debris in the sheep enclosure. There were machinery parts present that can cause harm to the sheep.

The bobcat enclosure was overgrown with grass and weeds that were near waist level of the inspector. The excessive vegetation can harbor pests and dangerous animals (ex: snakes) that are a potential risk to the animal.

All buildings and premises must be kept clean, cleared and in good repair in order to prevent animals from injury and to keep them in good health. A system of maintaining effective housekeeping practices must be in place.

Correct by: 7/10/2015

An inspection and exit interview was conducted with APHIS personnel and the facility manager.
