Type: ROUTINE INSPECTION
Date: 15-AUG-2024

3.11(d)

Cleaning, sanitization, housekeeping, and pest control.

At time of inspection there was a significant number of both live and dead insects on feed bags stored in a back room of building #2. The building housed 38 cats and 5 kittens. Insect infestation can cause health and well-being issues to the animals housed and contaminate feed sources. The licensee shall implement appropriate pest control methods so as to minimize the insect population.

To be correct by August 30th, 2024

This inspection and exit interview were conducted with a facility representative.
