Customer ID: 3648

Certificate: 93-C-0040

Site: 002

ZOOLOGICAL SOCIETY OF SAN DIEGO

Type: ROUTINE INSPECTION

Date: 12-FEB-2015

2.40(b)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility has a gorilla breeding colony and there is a young juvenile, approximately 1 year old, among the group. The scale for weighing these animals is not functioning and according to the weight logs, and a facility representative, the scale has been inoperative since November of 2014. A scale is necessary to monitor the condition of these animals on a regular basis.

A system should be in place to ensure appropriate equipment is available, and/or is repaired in a timely manner, to maintain the health and well-being of the animals.

To be corrected by March 15, 2015

3.125(a)

FACILITIES, GENERAL.

In an animal enclosure in the nursery currently housing meerkats, there are two light fixtures which do not have bulb covers. In the event the bulbs in these fixtures break and/or shatter, there are no protective structures in place to prevent glass from falling into the enclosure and injuring an animal. A system should be in place to ensure animal housing facilities, including its furniture, light fixtures, etc., are maintained in a manner that protects the animals from injury.

To be corrected by March 1, 2015

An exit briefing was conducted with the facility representative.

Additional Inspectors

Lorang Jeanne, Animal Care Inspector
