Type: ROUTINE INSPECTION
Date: 23-AUG-2016

3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Housekeeping for premises.

There is an overgrowth of weeds and grasses inside and around the outdoor run on the south side of the sheltered facility. Three adult American Eskimo dogs are currently using this enclosure. Many of weeds are taller than the dogs. On the east side of the sheltered housing facility there is a large scrap metal pile. Old construction materials and other discarded items have been piled up on the cement slab about six feet away from the building. Accumulations of trash, junk, weeds and other discarded matter around the premise can provide a living/breeding area for rodents and other pests. Keeping premises free of trash, junk, waste products, weeds and discarded matter is necessary to ensure the health and well being of the dogs.

To be corrected by: September 16, 2016.

Exit briefing conducted with the licensee.

*The inspector completed this inspection report when Animal Care was transitioning to a new information management system. Because the inspector re-typed the inspection report into the new system when it was deployed, the "prepared by" date on this inspection report is different than the date the inspector prepared the original inspection report, which occurred on August 23, 2016.
