Certificate: **46-A-0112**
Site: 001
CINDY HUBERS

Type: ROUTINE INSPECTION
Date: 04-AUG-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

* A four year old black, white and tan King Charles Cavalier, female, (ID # 0A01412579) had an excessive buildup of a dark brown to yellowish material on the canine teeth (the large carnassial teeth) and front teeth extending up to the gum line. The right side cheek teeth are covered with a buildup of grayish to cream colored material. The gums were dark red and swollen on both sides of the mouth. There was a grayish creamy material along the gum line near the cheek teeth on both sides. The buildup of abnormal material on teeth with a discharge at the gum line can be painful, impact the ability of the dog to eat normally, and harm the health of the animal.

* A two year old, black and tan, Dachshund, female (ID# 069264798) had an excessive buildup of a yellowish to dark brown material on the canine teeth (the large carnassial teeth), cheek teeth and front teeth. The cheek teeth are totally covered with the material. The gums were swollen and dark red on both sides of the mouth. There was a grayish creamy substance along the gum line near the cheek teeth and canine teeth. The buildup of abnormal material on the teeth with a discharge at the gum line can be painful, impact the ability of the dog to eat normally, and harm the health of the animal.

The licensee must have these animals examined by a veterinarian to obtain an accurate diagnosis and appropriate treatment plan. The outcome of this consultation must be documented and provided to the inspector upon request. The licensee must ensure that all animals receive adequate veterinary care at all times.

To be corrected by, 30-August-2015.

This inspection and exit interview was conducted with the facility representative and Randall Wagner (ACI).

This inspection report will be sent by e-mail.
