

## Inspection Report

---

WATERFORD TOWNSHIP PARKS AND RECREATION  
5200 CIVIC CENTER DRIVE  
WATERFORD, MI 48329

Customer ID: **27322**

Certificate: **34-C-0234**

Site: 001

HESS HATHAWAY PARK

Type: ROUTINE INSPECTION

Date: 09-SEP-2021

---

### 3.129(a)

#### Feeding.

There was fly strike ointment and sunscreen stored inside the feed bin for the pig. Storing chemicals with the feed can cause contamination of feedstuffs and can lead to animal injury. Food fed to animals must be kept free from contamination.

Corrected at the time of inspection

### 3.131(d)

#### Sanitation.

There are multiple wooden posts with rusted metal wire attached and with sharp points protruding outwards and sections of older irrigation tubing in the sheep pasture. Sharp metal points and debris in enclosures can cause injury to the animals. The facility must be kept clean and in good repair to protect the animals from injury. Remove these hazards from the sheep pasture.

Correct by 9/16/21

This inspection and exit interview were conducted with a facility representative.
