2.31(c)(2)

Institutional Animal Care and Use Committee (IACUC).

The most recent semiannual facility inspection conducted by the IACUC was in August 2023, a period greater than 6 months at time of inspection. Failure to conduct semiannual inspections of the animal facilities at least once every six months may hinder the ability of institutional officials to identify problems and take needed corrective actions to prevent animal facilities and animal study areas from falling into disrepair and non-compliance. The IACUC, as an agent of the research facility, shall inspect, at least once every six months, all of the facility's research animal facilities, including animal study areas.

Correct by 14 June 2024.

This inspection and exit interview were conducted with the facility representative.
