Certificate: **56-C-0251**  
Site: 001  
DORIS LANNON

Type: ROUTINE INSPECTION  
Date: 02-AUG-2016

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Although there is a written Program of Veterinary Care, it does not provide enough detail for all of the animals present. The PVC needs to address all of the regulated species on the property and completely describe any vaccinations given, parasite treatments (including listing drugs and dosages), emergency care available, and any other aspects of veterinary care to be provided by the licensee and veterinarian.

The PVC needs to be completed and provided for re-inspection before any regulated activity is allowed.

### 3.81

#### ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

Although the licensee wrote an Environmental Enhancement Program for the two lemurs, it has not been reviewed and approved by the attending veterinarian. The enrichment plan is to be in accordance with currently accepted professional standards and directed by the attending veterinarian. The attending veterinarian needs to review and approve the licensees enrichment program. To be corrected before regulated activity resumes.

Licensee has moved to a new location and this is a pre-use site inspection. No regulated activity allowed until the above citations are corrected.
