Environment enhancement to promote psychological well-being.

The facility did not have veterinary approval for environmental enhancement practices at the time of inspection. The environmental enhancement plan, including specifications for social grouping, environmental enrichment and birds requiring special care, and approved by the veterinarian, ensures appropriate methods for avian welfare are in place. The facility must ensure that the environmental enhancement plan is fully documented and is approved by the veterinarian.

Correct by January 14, 2024.

This inspection and exit interview were conducted with facility representatives.
