Type: ROUTINE INSPECTION
Date: 07-JUL-2016

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

An adult black and white shih-tzu identification number KSDBG 2-15, date of birth 07-24-2006, has a buildup of a tartar like substance covering the upper premolar teeth on the right and left side and about half of the canine teeth. A buildup of tartar can lead to dental disease, be painful, and impact the dog's ability to eat normally. Left unattended tartar can cause damage to gum tissue affecting the overall health of the animal. The owner must have this dog seen by a veterinarian to address the tartar buildup and teeth cleaned to help ensure the good health of this dog. Correct by 07-15-2016.

This inspection and exit briefing were conducted with the facility owner and Karl Thornton, ACI.
