

Inspection Report

Julies Jungle Inc
4235 Dewey Rose Lane
Cantonment, FL 32533

Customer ID: 1903
Certificate: 58-B-0583
Site: 001
JULIES JUNGLE INC

Type: ROUTINE INSPECTION
Date: 02-FEB-2016

3.125(a)

FACILITIES, GENERAL.

** All of the serval and caracal enclosures had platform tops that were made of pressed wood. The pressed wood is splintered and deteriorating. It is no longer in good repair and could potentially injure the animals if it is not replaced and/or repaired. Correct by February 16, 2016

** The 2nd pen containing a male caracal lynx had a plastic mesh fencing on the bottom portion of the chain linked enclosure. It was unraveling in the corner and the cat could potentially get entangled in it. The enclosure should be in good repair and the mesh fencing should be repaired and/or replaced. Correct by February 16, 2016.

3.131(a)

SANITATION.

** In the new kinkajou cage that contained 2 kinkajous there was an abundance of feces on the floor. There was a foul odor and the presence of several flying insects. Feces shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors. When enclosures are cleaned by hosing or flushing, adequate measures shall be taken to protect the animals confined in such enclosures from being directly sprayed with the stream of water or wetted involuntarily. Correct by February 5, 2016

The inspection and exit interview was conducted with the licensee.
