MOORPARK COLLEGE TEACHING ZOO

Type: ROUTINE INSPECTION

Date: 12-MAY-2015

3.75(e)

HOUSING FACILITIES, GENERAL.

In the food preparation area, an opened bag of nonhuman primate food was being stored on a rack in the freezer. When not in use, open food must be kept in leakproof containers with tightly fitting lids to prevent spoilage and contamination. Feeding of spoiled and/or contaminated food can adversely affect the health and well-being of the animals. A system should be in place to ensure open bags of food are stored as required.

Corrected during inspection.

An exit briefing was conducted with a facility representative.
