HOLABIRD BUSINESS PARK

Type: ROUTINE INSPECTION

Date: 08-APR-2015

2.31(d)(1)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

A current (within the past three years) search of the procedures that may cause more than momentary or slight pain or distress to the animals was not available for protocol 1410.3 which was renewed February 2015. No animals are currently under this protocol. A previous search had identified articles pertinent to one of the painful procedures but was more than 5 years old. There was no search performed on the other potentially painful procedure. The IACUC must assure: The principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources. Correct By: 30 April 2015

2.36(b)(7)

ANNUAL REPORT.

The annual report for Fiscal Year 2014 listed 3 animals in column E and included an explanation of these Column E animals as required. A review of records showed only 2 animals that should have been included in this column and the Column E explanation did not match with the animal records or protocol. The annual report needs to be amended and include an explanation of the procedures producing pain or distress in these animals and the reasons it was not alleviated. Correct by: 30 April 2015

An exit interview was conducted with facility CEO.

Prepared By: DAVID OELBERG, D V M USDA, APHIS, Animal Care
