RECORDS: DEALERS AND EXHIBITORS.

During this inspection it was noted that the records were not current. No records were available for the newly acquired zebus or hedgehog. Nor was documentation made on the goat births. All deaths, births, acquisitions and dispositions need to be documented. All records need to be kept current, accurate, and complete at all times.

***To Be Corrected By: September 4, 2016

An exit interview was conducted with the licensee.

The inspector completed this inspection report when Animal Care was transitioning to a new information management system. Because the inspector re-typed the inspection report into the new system when it was deployed, the "prepared by" date on this inspection report is different than the date the inspector prepared the original inspection report, which occurred on August 23, 2016.
