Certificate: **21-A-0114**
Site: 001
LAWRENCE WEAVER

Type: ROUTINE INSPECTION
Date: 08-AUG-2017

3.2(d)

INDOOR HOUSING FACILITIES.

*** The floors in the main kennel area need to be resealed. The floor has several sections where the area is no longer impervious to moisture. These floors need to be re sealed to facilitate cleaning of the kennel. In addition, the side wall and wall with the windows has sections of linoleum at the base of the wall that is peeling up and off the wall, and the area behind the wall is not impervious to moisture. The floors and walls of the main kennel need to be maintained in good repair to facilitate cleaning of the kennel which includes keeping these areas impervious to moisture.

Correct by: Oct 10, 2017

This inspection and exit interview were conducted with the licensee.
