Customer ID: **37219**

Certificate: **31-R-0122**

Site: 002

STAUTZENBERGER COLLEGE  
VET TECH PROG

Type: ROUTINE INSPECTION

Date: 20-JUN-2023

### 2.31(b)(3)(ii)

#### Institutional Animal Care and Use Committee (IACUC).

At the time of inspection, the IACUC at this facility did not have a participating non-affiliated member. The non-affiliated member is someone who is not affiliated in any way with the facility other than as a member of the IACUC and provides representation for general community interests in the proper care and treatment of animals. The lack of a non-affiliated IACUC member means that the general community interest is not being represented. At least one member of the IACUC shall not be affiliated in any way with the facility other than as a member of the Committee, and shall not be a member of the immediate family of a person who is affiliated with the facility. Correct by ensuring that a non-affiliated member provides representation for the general community interests on the IACUC. Correct by July 20, 2023.

### 2.31(c)(1)

#### Institutional Animal Care and Use Committee (IACUC).

The IACUC has not completed a review of the facility's program for humane care and use of animals within the last six months. IACUC records reviewed during this inspection indicate that IACUC semi-annual reviews of the facility's program for the care and use of animals last occurred in October of 2022. Regular reviews are necessary to ensure IACUC oversight of the program and to ensure the welfare of the animals being used in research by the facility. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall review at least once every 6 months, the research facility's program for humane care and use of animals. Correct by ensuring the IACUC reviews the facility's program for humane care and use of animals at least once every six months. Correct by July 20, 2023.

### 2.31(c)(2)

#### Institutional Animal Care and Use Committee (IACUC).

The IACUC has not completed a review of the animal facilities within the last six months. IACUC records reviewed during this inspection indicate that IACUC semi-annual reviews of the animal facilities last occurred in October of 2022. Regular reviews are necessary to ensure IACUC oversight of the facility and to ensure the welfare of the animals being used in research by the facility. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall inspect at least once every six months, all of the research facility's animal facilities, including animal study areas. Correct by ensuring the IACUC inspects the animal facilities at least once every six months. Correct by July 20, 2023.

## Inspection Report

---

3.13(a)

Repeat

### Veterinary care for dogs.

The written Program of Veterinary Care (PVC) for dogs has not been updated to reflect the directions of the attending veterinarian. The facility has an agreement with a veterinarian, however, the PVC has not been reviewed and signed by the individual. Failure to maintain a documented and signed program of veterinary care can result in a lack of understanding and direction in the general health and care of the animals. A written Program of Veterinary Care (PVC) for dogs must be established and maintained so that the facility has a current plan that provides for adequate preventative care and treatments as deemed necessary. The plan must include all required components as listed in the Animal Welfare Act and Animal Welfare Regulations, Part 3, Subpart A, Section 3.13.

This inspection and exit interview were conducted with a facility representative.
