Type: RE-LICENSE INSPECTION

Date: 27-SEP-2023

---

### 3.1(c)(1)(i)

#### Housing facilities, general.

Three metal den structures provided for five wolf/dog hybrids have excessive rust. The rust is primarily around the entrances of the dens. Surfaces that contain rust cannot be adequately cleaned and sanitized and may hide damage to the metal structure itself. Interior metal surfaces and those that come in contact with the dogs must be free of rust that prevents the required cleaning and sanitization or that affects the structural strength of the surface.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 26-November-2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
