Nature Park at The Shell Factory  
2787 N Tamiami Trail  
NORTH FORT MYERS, FL 33903

Customer ID: **27537**

Certificate: **58-C-0813**

Site: 001

NATURE PARK AT THE SHELL  
FACTORY

Type: ROUTINE INSPECTION

Date: 14-SEP-2021

---

### 3.27(b)

#### Facilities, outdoor.

The climate-controlled building, which houses 18 guinea pigs, has a small doorway that allows the guinea pigs free access to an outdoor public viewing enclosure. At the time of inspection there were seven guinea pigs observed in this outdoor area.

Guinea pigs are sensitive to temperature extremes and outdoor housing of guinea pigs may lead to discomfort or physical stress to the animals.

The guinea pigs shall be housed in an indoor facility that provides adequate climate control to support the health and well-being of the animals. To be corrected by September 21, 2021.

### 3.81(c)(4)

#### Environment enhancement to promote psychological well-being.

The facility has a ring-tailed lemur that is housed alone. The current environment enhancement plan does not address special considerations for individually housed nonhuman primates.

## Inspection Report

---

Individually housed nonhuman primates that are unable to see and hear non-human primates of their own or compatible species require special attention within this enrichment plan in order to promote psychological well-being.

The facility must develop and maintain a written enrichment plan that provides special considerations for NHPs requiring special attention. To be corrected by October 15, 2021.

This inspection and exit interview were conducted with a facility representative.
