Requirements and application.

The inspection team visited the facility and confirmed regulated activity without a license. Records from a regulated broker document that the facility representative bought a Patagonian Cavy, a Flying Squirrel, and 7 hedgehogs in November 2022. The representative confirmed that they resold the Patagonian Cavy, the Flying Squirrel, and three hedgehogs without a license. All regulated animal activity must have the appropriate license or registration from USDA APHIS Animal Care. Correct by applying for and receiving the appropriate AWA license type before continuing regulated activity.

No regulated activities may be conducted until a USDA license/registration is obtained.
