

## Inspection Report

Middlesex County Parks Department  
P O Box 661  
New Brunswick, NJ 08903

Customer ID: **2064**

Certificate: **22-C-0140**

Site: 003

MIDDLESEX COUNTY PARKS DEPARTMENT

Type: ROUTINE INSPECTION

Date: 27-APR-2017

### 3.125(a)

#### FACILITIES, GENERAL.

POT BELLIED PIG: The goats have damaged the wire fence fabric in the left corner of "Bacon's" enclosure fence. The damage has left a gap large enough for the goats to put their heads through. Additionally, protruding points of the broken wire were present. During this inspection, the broken, protruding wires were removed. The damaged fence fabric must be repaired and/or replaced to maintain structural strength and to protect the animals from injury.

TO BE CORRECTED BY: MAY 4, 2017

### 3.127(c)

#### FACILITIES, OUTDOOR.

POT BELLIED PIG: Water is pooling in front of the "human door" of "Jerry's" shelter building. The keeper must step through this water in order to gain entrance into the shelter building. Additionally, when the interior of the shelter is hosed out for cleaning, the excess water is directed out of the "human door" which may be a cause of pooling water.

A suitable method shall be provided to rapidly eliminate this excess water to prevent unnecessary pooling.

TO BE CORRECTED BY: MAY 18, 2017

This inspection and exit briefing were conducted with the facility representatives.
