### 2.126(a)(2)

#### Access and inspection of records and property; submission of itineraries.

The written Program of Veterinary care was not available for review at the time of the inspection.

Per this Section of the Regulations, all documents that are required to be kept under the Animal Welfare Act (AWA) should be available at the time of an inspection so the required documents can be reviewed to determine the facility's compliance with the provisions of the AWA. Correct from this date 9/9/22 forward.

### 2.134(a)

#### Contingency planning.

There was no Contingency Plan developed or documented by the Licensee at the time of the inspection.

Per this Section, exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). The contingency plan requirement ensures that the animals receive proper care during emergency situations. Corrected at the time of the inspection
