Type: FOCUSED INSPECTION

Date: 18-AUG-2025

3.125(a)

Repeat

Facilities, general.

The sheep enclosure fencing continues to be in disrepair. Several areas of the chain link fencing was observed to be sagging downwards. This could cause injury to the animals. The facility must be kept in good repair in order to protect the animals from injury. The facility must correct this issue.

This inspection and exit interview were conducted with the licensee.
