Type: ROUTINE INSPECTION
Date: 09-NOV-2017

3.127(d)

FACILITIES, OUTDOOR.

A perimeter fence of acceptable height, 8 feet for dangerous animals and 6 feet for all others, is not in place at this facility. The bears, leopard and cougar are partially enclosed by a perimeter fence 8 feet high and other species including capybara, fox and otter are only partially enclosed by a fence at least 6 feet high. A perimeter fence of specific height is required to keep unauthorized persons and animals out and to function as a secondary containment system in case of escape.

Perimeter fence construction was taking place during this inspection. The facility is building an eight foot fence that will enclose all animals and is anticipated to be complete within thirty days. Correct by: December 14, 2017.

The inspection and exit interview were conducted with the licensee.
