West Palm Beach, FL 33413

Customer ID: **36400**

Certificate: **58-B-0469**

Site: 001

THE TROPICAL RAINFOREST
PRESERVE INC

Type: RE-LICENSE INSPECTION

Date: 18-AUG-2023

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The drug cabinet contained expired medications (dewormer, antibiotics, pain medications, supplements) which were comingled with non-expired medications ready for use. Expired medical products may lose their effectiveness and may not assist the animals in recovery from illness and injury or could leave the animals without proper protection against serious and deadly diseases. Each dealer shall use appropriate methods to prevent, control, diagnose, and prevent diseases and injuries. Expired medication should be properly disposed. The licensee must ensure that all medical products being maintained for use at the facility are current and have not expired in order to support the health and well-being of the animals.

2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

At the time of inspection, the contingency plan, record of animals on hand, and environmental enhancement program for non-human primates were not available for review by the inspector. Review of records required by the Animal Welfare Act facilitates the inspection process by allowing the inspector to determine compliance and evaluate animal welfare. The facility shall ensure that the records required to be kept by the Animal Welfare Act and the regulations are available for USDA APHIS officials to examine at the time of inspection.

3.80(a)(2)(i)

Primary enclosures.

The primary enclosure housing two cotton-top tamarins contained two wire mesh platforms which had excessive rust, deteriorated metal, and sharp points. Sharp points, particularly those in areas that animals frequently contact, increase the risk of animal injury. The licensee must ensure structural elements shall be sound and in good repair, free from hazardous conditions such as sharp edges, nails, splinters, or loose, rusty, or deteriorated materials.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

Inspection Report

All items must be in compliance within 2 more inspections or by October 17, 2023, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
