City of San Angelo  
7409 KNICKERBOCKER ROAD  
SAN ANGELO, TX 76904

Customer ID: **45200**  
Certificate: **74-C-1008**  
Site: 001  
City of San Angelo

Type: ROUTINE INSPECTION  
Date: 29-MAR-2022

---

### 3.56(a)(1)

#### Sanitation.

The outdoor enclosure of an adult female Jack Rabbit has excess accumulation of excreta to the point that the animal must step on its own poop in order to access feed and water. Fecal buildup creates unsanitary conditions that can lead to health issues and the transmission of diseases. Enclosures must be kept reasonably free of excreta, hair, cobwebs and other debris by periodic cleaning.

To be corrected by Tuesday, April 5th, 2022

### 3.125(a)

#### Facilities, general.

A wooden platform inside the outdoor enclosure of an adult male racoon is broken. The animal was seen walking on the platform that has a hole in the center big enough to fit the racoon's front limbs. The animal can easily slip into the hole and get injured. Outdoor facilities should be kept in good repair to prevent injury to the animals contained therein. The platform needs to be repaired or replaced.

To be corrected by: Tuesday, April 5th, 2022.

This inspection and exit interview were conducted with facility representative
