Type: ROUTINE INSPECTION
Date: 14-DEC-2015

2.40(a)(1) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Section IV: Other Warmblooded Animals of the written Program of Veterinary Care (PVC) form has not been filled out by the Attending Veterinarian (AV) of the facility. A completed PVC is required to ensure the facility has written guidance from the AV in the areas of vaccinations, a parasite control program, emergency care, euthanasia, and additional program topics, to maintain the health and well-being of the animals.

Each exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the exhibitor.

Original correction date: May 4, 2014

3.55

WATERING.

There is a moderate build up of brown organic matter in the rabbit's water bottle.

All watering receptacles shall be sanitized when dirty or shall be sanitized at least once every 2 weeks. A system should be in place to ensure water receptacles are cleaned as required.

To be corrected by December 15, 2015

3.56(c)

SANITATION.

There is a moderate accumulation of excreta collecting on the ground underneath a rabbit enclosure. A moderate amount of flies were noted in this area at time of inspection. Excessive amounts of excreta can attract flies which may increase disease hazards to animal areas.

Premises (buildings and grounds) shall be kept clean in order to facilitate the prescribed husbandry practices set forth in this subpart. Premises shall remain free of accumulations of trash.

A system should be in place to ensure areas surrounding animal housing areas are cleaned as required to protect the health and well-being of the animals.

To be corrected by January 15, 2016
