Site: 031

Charles River Laboratories

Type: ROUTINE INSPECTION

Date: 10-AUG-2023

2.31(e)(2)

Repeat

Institutional Animal Care and Use Committee (IACUC).

Review of Protocol P-062821-H showed that this protocol, as approved, does not contain a rationale for the appropriateness of the number of animals to be used.

An animal use proposal must include a rationale for the appropriateness of the numbers of animals to be used so that the Institutional Animal Care and Use Committee (IACUC) can conduct a thorough review of the components of the activities related to the care and use of animals and determine that the proposed activities are in accordance with the Animal Welfare Act.

The IACUC needs to address this deficiency and ensure all approved protocols contain a rationale for the appropriateness of the numbers of animals. Correct by 8/17/2023.

This inspection and exit interview were conducted with facility representatives.
