2.1(a)(1)

Requirements and application.

This is a search inspection.

The individuals have continued to conduct regulated activity without an active USDA Animal Care license. A USDA inspector had spoken with the individuals in September 2024 about conducting regulated activity without a license and an application was provided. On December 7th, 2024, this individual took a male spider monkey "Fynn" to a pet store for a photoshoot with members of the public and received compensation for the event. The individuals state they have sent in an application, but they have not completed a pre-license inspection and do not hold an active USDA license. Conducting regulated activity without a USDA license does not comply with the Animal Welfare Act or ensure that APHIS officials can assess the care of the animals. The individuals must obtain a license from the USDA to continue conducting regulated activity under the Animal Welfare Act. Continuing to conduct regulated activity without a license is a serious violation of the Animal Welfare Act.

This inspection and exit interview were conducted with facility representatives.
