### 2.40(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The two reindeer were observed with overgrown hooves. Over long toes are prone to breaking and cracking, and may alter the animal's gait and place undue stress on tendons and joint structures. The licensee must ensure that routine hoof care is provided to the reindeer.

Correct by May 24, 2018.

This inspection and exit briefing were conducted with the facility representative.
