Type: ROUTINE INSPECTION
Date: 20-APR-2017

2.40(a)(1) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility was not able to provide records (signature of the veterinarian on the form or invoice) of the visit to the premises by the attending veterinarian in 2015, 2016 or to date in 2017. There were notes of veterinary directions for treatment of the animals in a handwritten log maintained by the staff.

Lack of regularly scheduled visits by the attending veterinarian might prevent the veterinarian from observing animals and their current housing conditions to determine proper care for the health and well-being of the animals

The facility must comply with the written program of veterinary care which stated that the veterinarian will visit the facility annually and records of the visit must be available at the time of inspection.

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

Acquisition records were not complete for the opossums and the remaining mule deer. The disposition records were not available for the 2nd opossum that was held at the facility then placed in another home. The required information under 2.75 b (1) was not available at the time of inspection. A system of records shall be made, kept and maintained which accurately discloses all the required information.

Correct by 27 May, 2017

This inspection and exit interview were conducted with facility representatives.
