Marysville, CA 95901

Customer ID: **329051**
Certificate: **93-R-0552**
Site: 001
YUBA COLLEGE

Type: ROUTINE INSPECTION
Date: 04-FEB-2016

2.31(b)(3)(2) REPEAT

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The unaffiliated member has resigned since the last IACUC meeting. As a result, the required IACUC membership is not complete. The unaffiliated member is intended to provide representation for the general community interests in the proper care and treatment and use of animals, and is thus, essential to the committee. A system should be in place to ensure IACUC membership is complete, and in the event a required member resigns, a replacement is appointed in a timely manner.

The new public member recently quit and there is no public member on the committee currently.

The facility needs to seek and acquire the public member to fill the vacant position as soon as possible.

This is a repeat non compliant item originally documented on March 5, 2015

2.31(c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The semi-annual report does not indicate who the report was sent to.

The IACUC, with respect to activities involving animals and as an agent of the research facility, must perform the function of preparing its semiannual evaluations and then submitting them to the Institutional Official in a timely manner to keep the Institutional Official adequately informed and to comply with the regulatory requirements.

One minor deficiency was noted (bird feces on the hay) on the semi-annual review with no plan of correction.

To be corrected by: 3/8/2016

2.31(d)(1)

Inspection Report

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The protocols do not address the assurance statements as required by the regulations. This would include procedures involving animals that will avoid or minimize discomfort, distress, and pain to the animals; the principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources; does not unnecessarily duplicate previous experiments; addresses painful procedures if needed; their living conditions; their medical care; that the personnel are properly trained; and use of proper euthanasia if needed. For the health and well-being of the animals, these items need to be addressed the animal use protocols.

To be corrected by: all new protocols or by 3/8/2016

2.31(d)(4)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

There is no documentation that the committee notified the Principle Investigator or the Institutional Official of the committee decisions on the approved protocols. IACUC shall notify principal investigators and the research facility in writing of its decision to approve or withhold approval of those activities related to the care and use of animals, or of modifications required to secure IACUC approval.

To be corrected by 3/8/2016

2.31(d)(6)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The principle investigator resigned several weeks ago and the active animal use protocols are no longer are valid. No new principle investigator has been assigned to these protocols. The IACUC needs to suspend any activity that it previously approved, and all protocols need to be approved with the new principle investigator.

To be corrected by: 3/8/2016

An exit briefing was conducted with the facility representative
