2.1(a)(1)

Requirements and application.

On June 11,2025 a search inspection was conducted by APHIS officials. It was determined that the facility currently brokers and ships regulated birds without a valid USDA license. An application with instructions was sent to the store owner on October 8,2024. Additionally, the business was previously contacted by USDA personnel on February 27,2025 and informed that a license is required to ship birds. A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility needs to obtain a USDA license or discontinue regulated activities.

No regulated activities may be conducted until a USDA license is obtained.

This inspection and exit interview were conducted with a facility representative.
