

Inspection Report

Texas Biomedical Research Institute
P. O. Box 760549
San Antonio, TX 78245

Customer ID: 1512

Certificate: 74-R-0003

Site: 001

SOUTHWEST FOUNDATION FOR BIOMEDICAL RESEARCH

Type: ROUTINE INSPECTION

Date: 09-FEB-2015

2.31(e)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Protocol 1927 CJ was reviewed and did not contain a description of the method used for hand rearing neonatal animals. A proposal to conduct an activity involving animals must contain a complete description of the proposed use of the animals. This proposal must include a description of the method used to hand rear neonatal animals.

CORRECT BY: 3-12-15

2.31(e)(5)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Protocol 1927 CJ was reviewed and did not contain a description of the euthanasia methods for neonatal animals. A proposal to conduct an activity involving animals must contain a description of any euthanasia method used. This proposal must include a description of the method used to euthanize neonatal animals. CORRECT BY: 3-12-15

2.33(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Numerous bottles of outdated drugs (vitamins and antibiotics) are present in the portable vet boxes . Two boxes of outdated suture material are present in the Colony 1 hospital. Medications and veterinary supplies lose their effectiveness when expired and may effect treatment outcome. Supplies of drugs and other medical supplies and must be maintained within expiration date to ensure that adequate veterinary care is provided . CORRECTED DURING INSPECTION

3.75(e)

HOUSING FACILITIES, GENERAL.

There are open bags of food enrichment items (pretzels and fruit loops) in Bay 8 CK . Open bags of food allow for the contamination from pests and deterioration of the food. Storage of open bags of food in containers with lids will prevent the food from spoilage, contamination or vermin infestation. CORRECTED DURING INSPECTION
