9410 Key West Avenue  
Rockville, MD 20850

Customer ID: 513

Certificate: 51-R-0050

Site: 002

BIOMEDICAL RESEARCH INSTITUTE

Type: ROUTINE INSPECTION

Date: 21-SEP-2016

---

### 2.33(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

The following expired injectable medication was found among non-expired materials in a lock box during the inspection: 1 bottle of Euthasol expired 5/2016. Medical materials are often imprinted with an expiration date beyond which the manufacturer does not guarantee the safety or stability of the item. The use of outdated medical materials is undesirable as these materials may lose their potency or degrade to toxic byproducts if stored after the expiration date. This may result in unpredictable outcomes. All expired medical materials must be identified and properly disposed of or properly labeled and stored in an area separate from non-expired medical materials. A system which would ensure that the expired items are identified and handled accordingly on a regular basis is required. This item was corrected by the end of the inspection.

This inspection and exit interview were conducted with the facility manager.
