

Inspection Report

William B Lee I I I
P.O. Box 1810
Idaho Springs, CO 80452

Customer ID: **6270**
Certificate: **84-C-0088**
Site: 002
WILLIAM LEE III

Type: ROUTINE INSPECTION
Date: 30-OCT-2014

A focused inspection was conducted with the licensee and 2 APHIS inspectors to re-evaluate two animals with veterinary conditions cited during the inspection of 9/19/2014.

**The bull reindeer calf had been separated from the herd along with 2 other calves for weaning purposes. He did appear to have a more normal gait and stance but did not move around much in this enclosure despite the other 2 calves being very active. Due to the severity of the animal's condition (a fractured right hind limb), continued monitoring daily is necessary. A follow-up examination and diagnostic testing is to be performed by the attending veterinarian before 11/30/2014, or prior to commingling with the adults if to be done sooner than 11/30/2014, to ensure the leg is fully healed.

**The husky-malamute dog, Mikoh ID# 9, was noted to no longer have any eye discharge and the condition has resolved.

Exit interview conducted with facility representative.

Additional Inspectors

Rhodes Cindy, Animal Care Inspector
