Miscellaneous.

This facility's annual contingency plan review has not been documented since November 2023. Each registrant must maintain documentation of their annual contingency plan reviews, including documenting any amendments or changes made since the previous year's review. Failure to maintain documentation of contingency plan reviews prevents APHIS officials from verifying that the plan has been reviewed annually. The facility must ensure that documentation of the contingency plan annual review is maintained and made available to APHIS upon request. Correct for any contingency plan review conducted after January 1, 2025.

This inspection and exit interview were conducted with a facility representative.
