Site: 001
WILLIAM MEADOWS

Type: ROUTINE INSPECTION
Date: 24-APR-2018

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Two of three rabbits housed in an outdoor enclosure each had one ear that was very crusty with underlying skin that appeared to be very red and irritated in some areas. Diseases involving the ear can be painful and become infected causing further trauma and damage. It could also be contagious to other individual animals.

The licensee must have these animals examined by a licensed veterinarian in order to ensure that an accurate diagnosis is obtained and an appropriate treatment plan is developed and followed. The licensee must ensure that all animals receive adequate veterinary care and treatment.

Corrected on April 24, 2018.

Inspection and exit briefing were conducted with facility representatives.

Additional Inspectors

Light Brittany, Animal Care Inspector
