

## Inspection Report

The Gentle Zoo  
12600 Fm 2932  
Forney, TX 75126

Customer ID: **41970**  
Certificate: **74-C-0891**  
Site: 001  
The Gentle Zoo

Type: ROUTINE INSPECTION  
Date: 06-MAR-2014

### 2.40(x)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

##### (a) (1)

\*\*\*\*\* At time of inspection the facility plan of veterinary care did not address all of the species currently at the facility and the review of the plan of veterinary care had not been reviewed at the frequency elected by the facility and the attending veterinarian when the agreement was entered into. A new species " Capybara " had not been added to the plan or recommendations for care for this species by the attending veterinarian. The date on the plan of veterinary care showing the last review by the attending veterinarian is dated 12/14/12.

This plan needs to be reviewed by the attending veterinarian and the new species addressed. This review should be conducted as new species are added to keep this plan for the facility current with the species held by the facility.

TO BE CORRECTED BY: 3/28/14

### 3.127

#### FACILITIES, OUTDOOR.

##### (b) Shelter from inclement weather.

\*\*\*\*\* At time of inspection the pen containing the following animals had shelter for the animals which did not allow all animals access should they have felt the need for shelter. The enclosure contained at time of inspection 5 goats, 1 pig and 6 sheep. The shelter provided was 1/2 of an existing shelter which had a livestock panel put into place to divide the shelter in half so as to provide shelter to animals in two enclosures. Shelter should afford all animals protection and should protect them from discomfort. Additional shelter needs to be provided to allow for all of the animals in an enclosure to feel protected and comfortable.

TO BE CORRECTED BY: 5/7/14

This inspection and exit interview conducted by APHIS, USDA, Animal Care Inspector and the Owner.
