Type: ROUTINE INSPECTION
Date: 05-NOV-2018

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

A current record of guinea pigs on hand was not available for review during this inspection. A total of 221 adult guinea pigs and 31 weanlings were counted during this inspection. There were no records of guinea pig births or deaths recorded. Records need to be kept on animal births and deaths to help keep track of animals and for evaluating the facility animal care program. Licensee must keep and maintain records of animals births and deaths to help keep track of animals. Correct by November 7, 2018.

3.31(a)(1)

SANITATION.

There are accumulations of wet and soiled bedding on the floor below the water bottles forming a wet pad. According to the licensee, the bedding is removed every other Saturday. Accumulations of wet and soiled bedding on the floor of enclosures can expose the guinea pigs to potential infections with bacteria, fungi, and parasites. Correct by ensuring that all primary enclosures are cleaned and sanitized often enough to prevent accumulations of excreta, wet and soiled bedding at that enclosures are sanitized at least once every 2 weeks. Correct by November 6, 2018.

This inspection and exit interview were conducted with the owner.
