Site: 001
MARVIN BURKHOLDER

Type: ROUTINE INSPECTION
Date: 24-SEP-2015

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** Male Cavalier dog #56 was found with signs of significant dental disease. This dog has tartar build-up on both upper and lower arcades of teeth on both sides of its mouth. In addition, there is gum recession on both sides of the upper premolars. The gums are also reddened in the areas of gum recession. This dog requires veterinary attention. The licensee must have this dog examined by the attending veterinarian to determine needed veterinary care. Failure to provide veterinary care for dental problems can lead to various health problems and can be painful to the dog. The licensee must follow recommended treatment and maintain records of such exam and treatments for future inspection by APHIS officials.

THIS IS A REPEAT NON-COMPLAINT ITEM THAT REMAINS UNCORRECTED

3.11(a) REPEAT

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** The outdoor wash downs on both sides of the main kennel continue to have an excessive accumulation of feces and staining. The licensee stated that these are being cleaned twice weekly. It is obvious by the condition of these washdowns today that they are not being cleaned as often as necessary to satisfy accepted husbandry standards. The licensee must ensure that these washdowns are cleaned as often as necessary to reduce disease hazards, minimize odors, and satisfy accepted standards. Correct this by cleaning and maintaining these areas on a more frequent basis.

THIS IS A REPEAT NON-COMPLIANT ITEM THAT REMAINS UNCORRECTED

*** Inspection and exit interview conducted with the owner, Randy Coleman, ACI, and Mike Neafsey, VMO.

Note: Male Boston #53 found in need of veterinary care on the January 15, 2015 inspection was treated by the attending veterinarian and the licensee is monitoring the animal.
