

Inspection Report

Forest Park Zoological Society
The Zoo in Forest Park, PO Box 80295
Springfield, MA 01138

Customer ID: **1975**
Certificate: **14-C-0003**
Site: 001
Forest Park Zoological Society

Type: ROUTINE INSPECTION
Date: 19-OCT-2023

2.40(b)(5)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Expired bottles of reversal agents, atipamezole, and naltrexone, expired on 11/08/2021, were used for the successful recovery of camel anesthesia on 10/18/23. While the anesthetic was successfully reversed, the use of expired drugs is not in accordance with established standards of veterinary practice. The facility must ensure that veterinary care is given in accordance with established veterinary medical and nursing practices.

Correct from this date forward, 19 October, 2023.

3.58(a)

Classification and separation.

One rabbit was housed with a nervous Patagonian cavy to provide a calming companion, on veterinary authority,. One rabbit was housed with two goats to provide social enrichment, as the rabbit is aggressive with other rabbits, on veterinary authority. Unless required for scientific reasons, rabbits may only be housed with other rabbits. The facility shall ensure that rabbit housing is compliant with the regulations.

Correct from 10/24/2023 forward.

3.125(a)

Facilities, general.

Power cords to heating pads in pig and muntjac enclosures were unprotected and accessible to the animals. Electrical cords may injure animals if they are chewed or damaged, or the animals accidentally become entangled. The facility must ensure that animals are protected from injury from electrical cords.

Correct by 23 October 2023.

3.125(c)

Facilities, general.

Received by Title: Facility Representative

Date:
25-OCT-2023

Inspection Report

Refrigerators and freezers used to store food for the animals had extensive black patches of material (dirt/mold) on the seals of the doors. Contamination of these door seals may lead to contamination of the diet, or impair the function of the seal in preserving correct temperatures to prevent deterioration of food. The facility must ensure food is stored adequately to prevent contamination and deterioration.

Correct by 23 October 2023.

This inspection and exit interview were conducted with facility representatives.
