NICHOLAS & WALLACE WAGLER

Type: ROUTINE INSPECTION
Date: 21-OCT-2014

No non-compliant items identified during this inspection.

This was a focused inspection on the Direct and Indirect 2.40 and 3.11 NCIs from the inspection on October 7, 2014. The veterinarian diagnosed and prescribed treatment for dogs # 27, #55 and #34. All dogs have recovered and healed from the conditions the veterinarian consulted on with the licensee. The licensee has kept a detailed and accurate treatment log of all animal health issues and their recovery in the facility and is treating issues as soon as they are observed. The observation program has improved greatly since the previous inspection and proper documentation and follow up is being conducted by the licensee.

The licensee has instituted a thorough cleaning and sanitization program that is according to AWA regulations in the facility.

Inspection and Exit interview conducted with facility representative.
