

## Inspection Report

Billy Harvey  
P.O. Box 980  
Cornville, AZ 86325

Customer ID: **8374**  
Certificate: **86-C-0073**  
Site: 002  
BILLY HARVEY

Type: ROUTINE INSPECTION  
Date: 11-AUG-2017

---

### 2.40(b)(2) REPEAT

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

All 5 of the Zebus were observed to have overgrown hooves that extended outward and were beginning to arch upward. The toes on all of the Zebus were long due to a lack of recent hoof trimming. Failure to appropriately maintain hooves/nails can cause gait abnormalities which could be painful or cause injuries. As part of the facility's program of preventative veterinary care, the licensee must ensure that all animals receive appropriate hoof and nail care in a timely manner.

Date to be Corrected: August 18, 2017

### 3.125(a) REPEAT

#### FACILITIES, GENERAL.

The wire mesh material (used to prevent digging and escape) in the coyote enclosure and the raccoon enclosure was exposed in several areas. The exposed mesh poses a risk of injury to the animal such as by abrading the foot pads or entrapment and fracture of the legs. Failure to maintain housing facilities in a structurally sound manner can cause injury to the animals. A system of monitoring and maintenance should be in place so that all housing facilities remain structurally sound and in good repair to protect the animals from injury.

Date to be Corrected: August 18, 2017

This inspection and exit briefing were conducted with the facility representative.

#### Additional Inspectors

Schnell Michael, Veterinary Medical Officer
