2.75(b)(1)

Records: Dealers and exhibitors.

According to the licensee, three rabbits had been sold in January and February of 2023, however records had not been completed. In addition, records were not available for recent acquisitions and dispositions of several species, including several births which had occurred at the facility. Records must be updated and maintained to include the required information per this section, including but not limited to name and address of the person to whom an animal was sold, and the date of purchase, sale or disposal.

*****Correct by June 1, 2023

3.125(a)

Facilities, general.

The chain link portion of the enclosure housing the goats and pigs was loose from the wooden support beams. The wire had curled upwards inside of the enclosure and there were sections with jagged edges. This could cause injury to animals. The licensee must ensure that enclosures are maintained in good repair.
