Siess Ranch L L C
2406 State Hwy 63
Seneca, KS 66538

Customer ID: **27916**
Certificate: **48-A-2155**
Site: 001
Siess Ranch L L C

Type: ROUTINE INSPECTION
Date: 15-SEP-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

In the "Bulldog Whelper " building, female black tri-color Bulldog named Sugar, microchip # 0A022244746, has red swollen tissue in the left eye with a greenish yellow discharge. The licensee stated that the dog had surgery approximately four weeks prior and was reevaluated one and one-half weeks ago when a cesarean delivery of her puppies occurred. Treatment following the puppy delivery has been over-the-counter lubrication drops applied as needed. Chronic eye problems and abnormalities can be painful and cause further loss of vision. The license must use appropriate methods to treat chronic eye problems and abnormalities.

TO BE CORRECTED BY: The licensee took the dog to the vet as I was leaving the inspection.

3.1(c)(3) REPEAT

HOUSING FACILITIES, GENERAL.

The Labrador Retriever outdoor housing facility housing fourteen dogs in eleven enclosures had a brown greasy build-up around the shelter entry doors, and the bottom edge of the shelters. The licensee stated that it had been three to four weeks since the enclosures had been sanitized. The licensee washes down daily as a means to spot clean. The build-up of organic material can harbor disease. The licensee must sanitize in accordance to 3.11(b), which states that used primary enclosures and food and water receptacles must be sanitized at least once every two weeks.

The inspection and exit briefing were conducted with the licensee.
